

Who uses  
Ultrasound?

Have you ever heard someone say as blind as a bat?

Its true that bats don't have very good eyesight, instead they use ultrasonic sounds to find their way around in the dark.

## Join the Dots

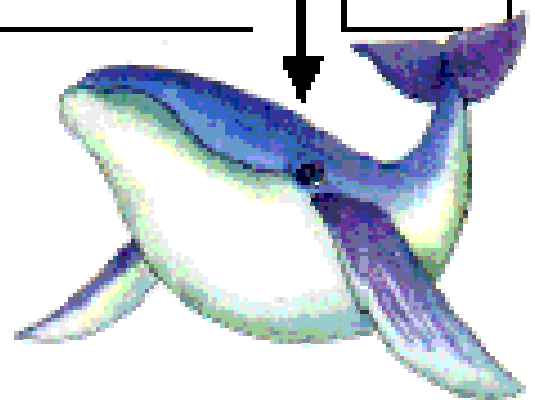

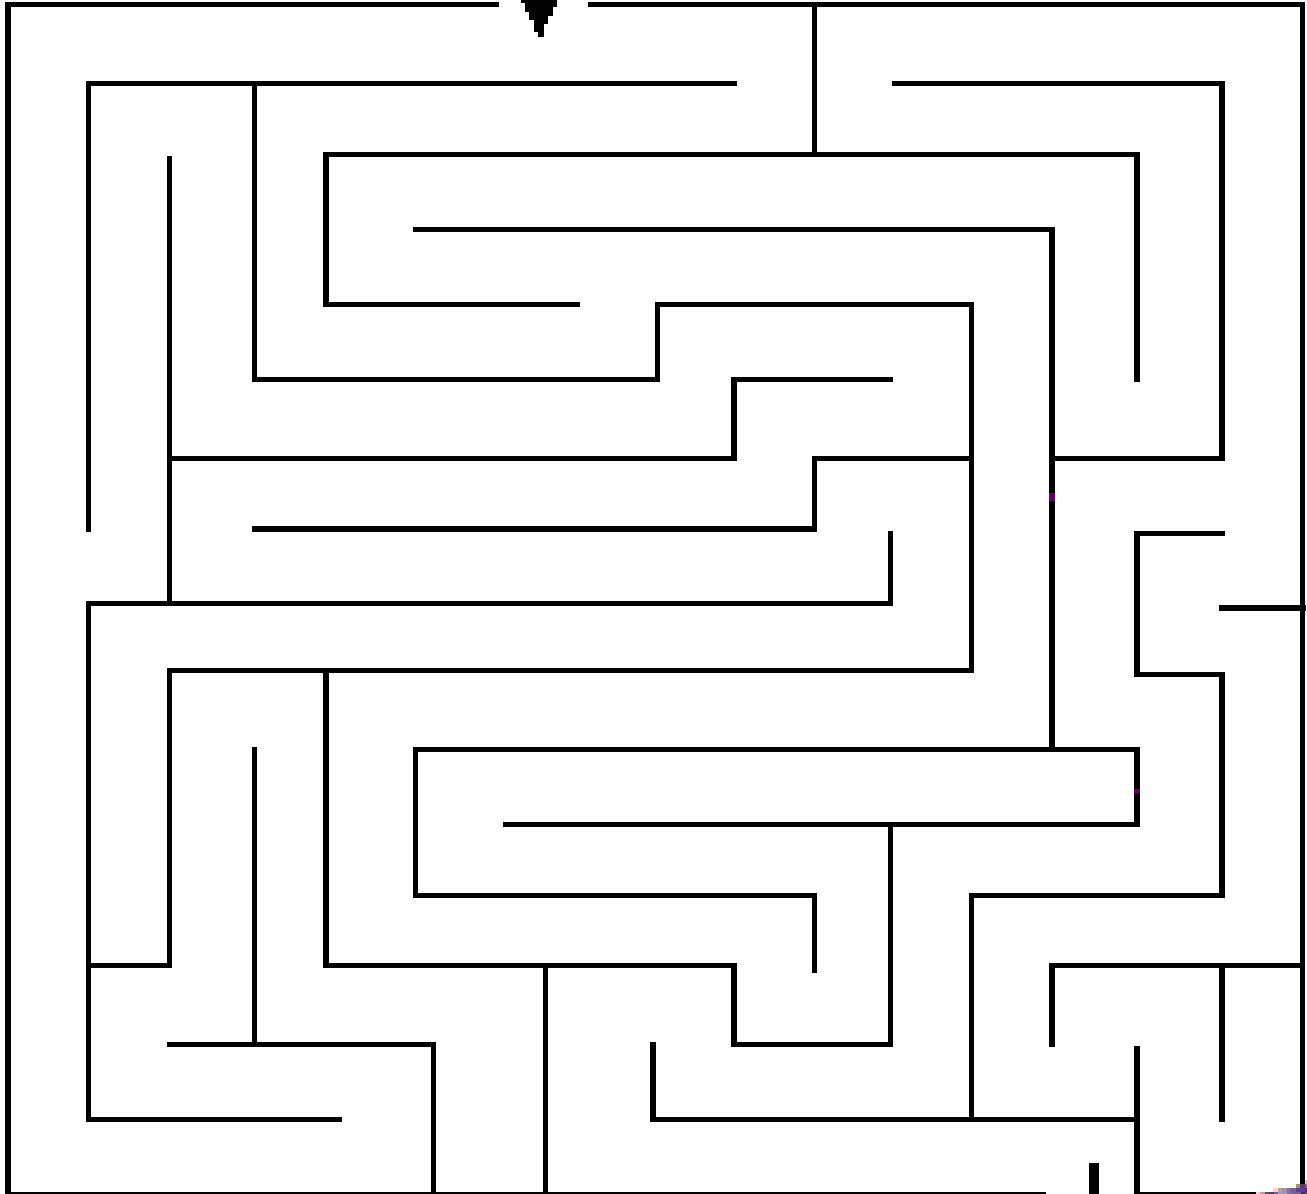

# Whales and Dolphins use it to talk to each other

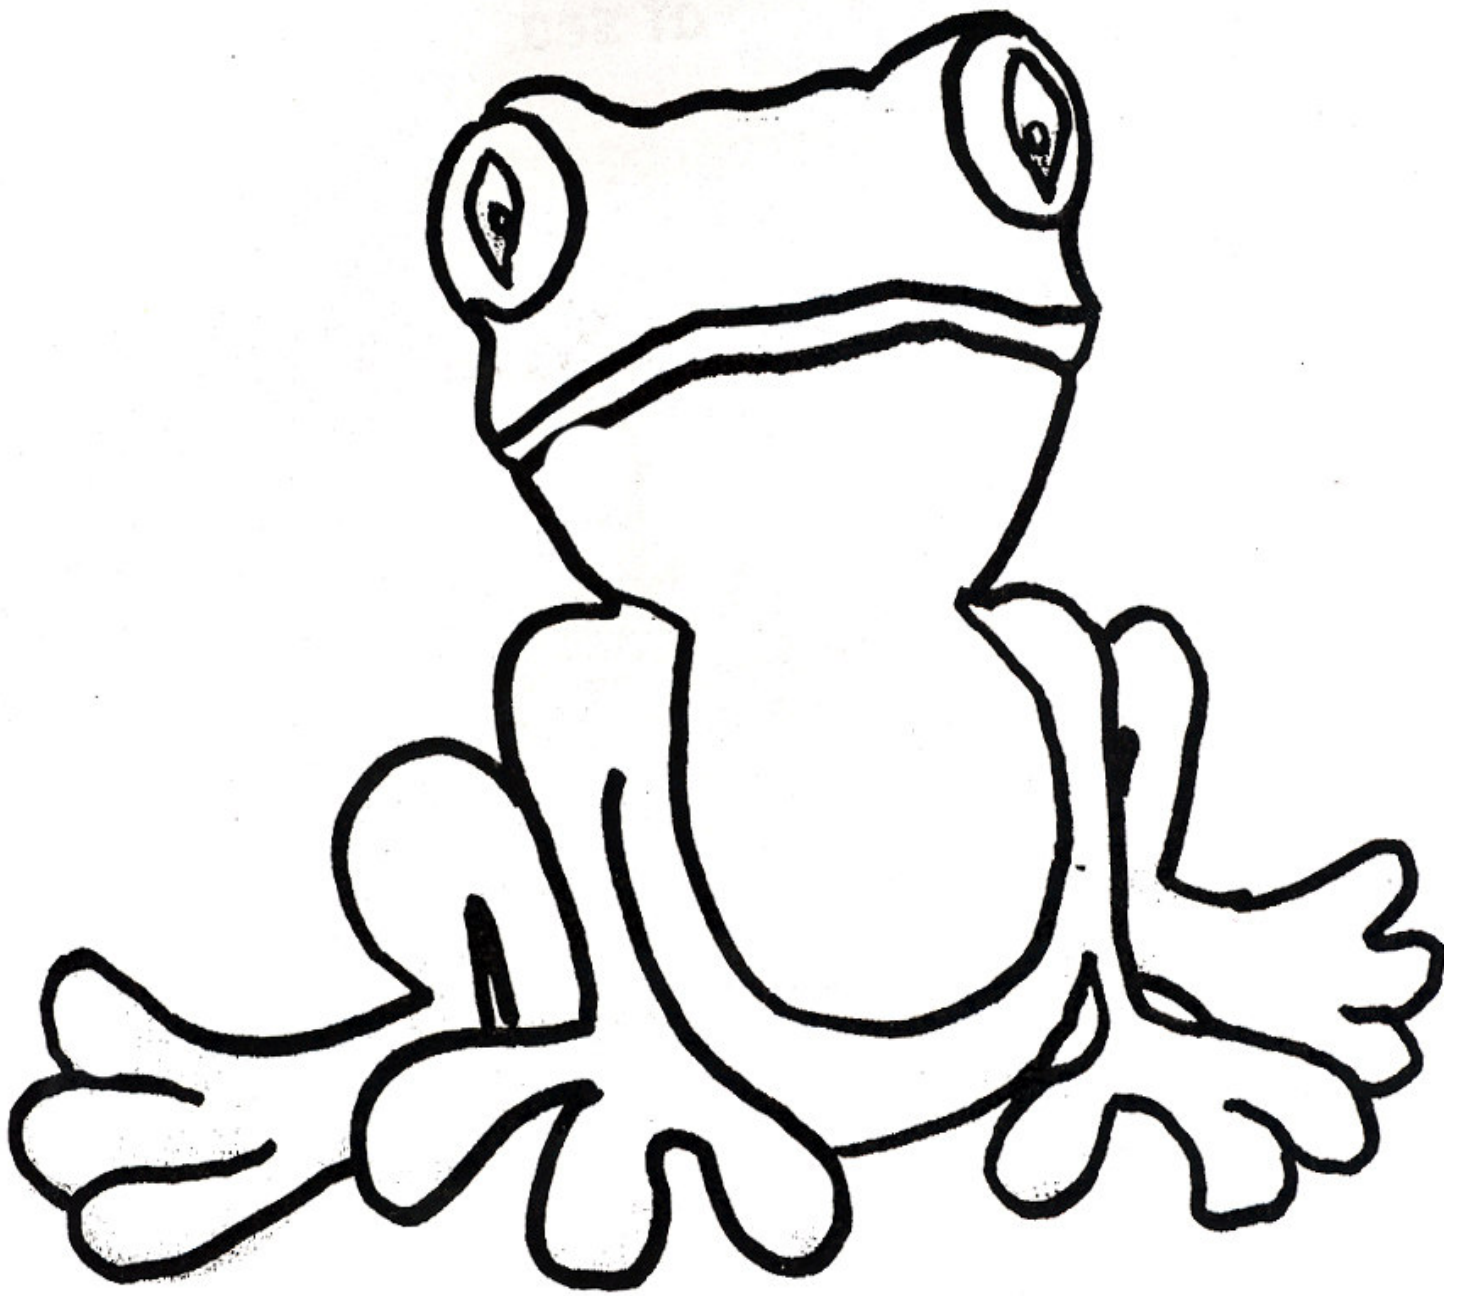

## Amazing Whales

Help this humpback whale calf find his mother.

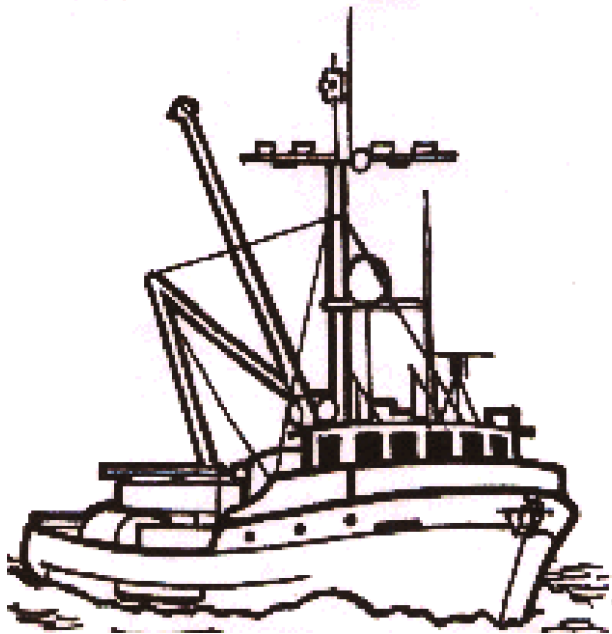

Some frogs in South America use Ultra sound because the waterfalls where they live are so noisy it's the only way to talk to each other.

Colour in the frog

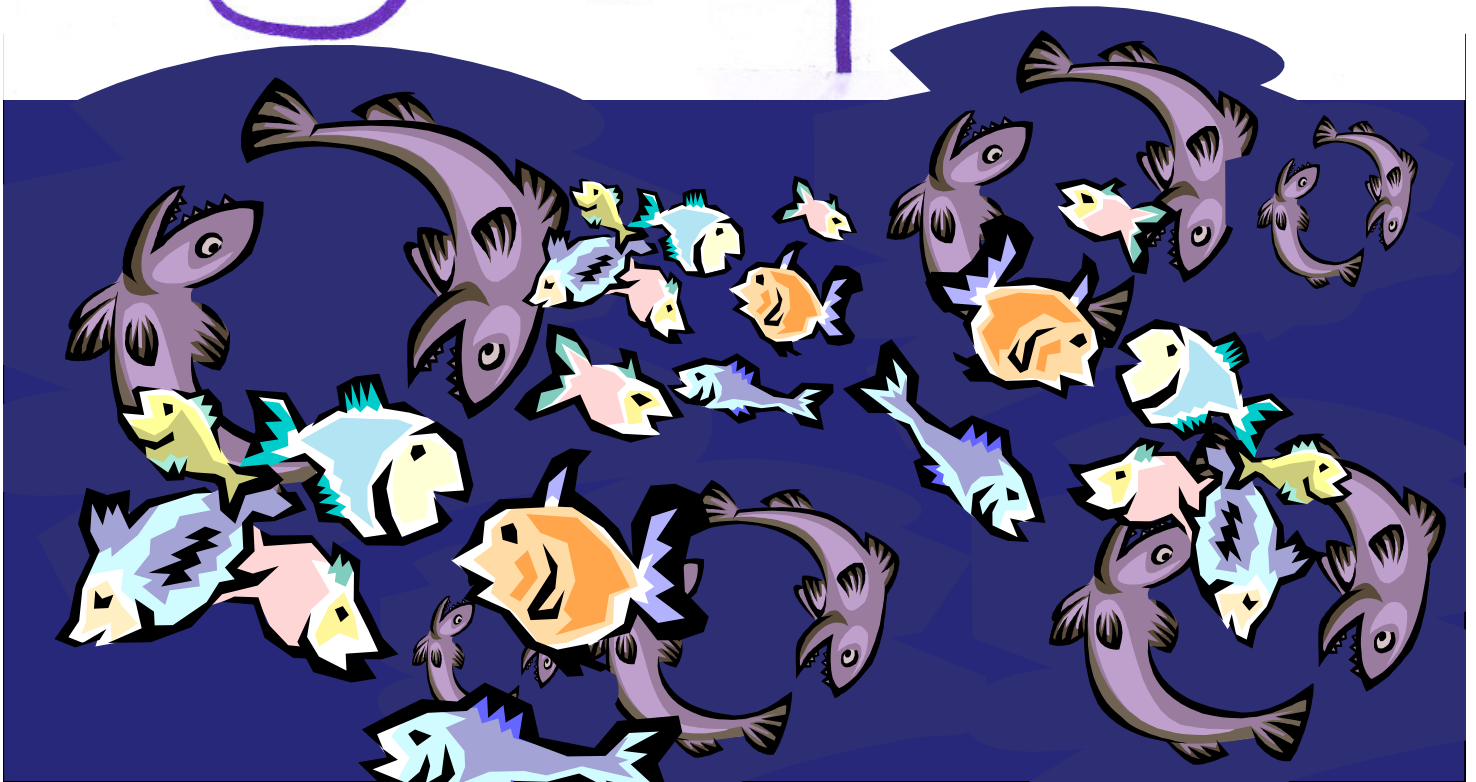

Fishermen use it to find shoals of fish when they are at sea.

Which net leads to the fish?

a b c
