NEW RENAL UNIT

The Vartry Renal Unit opened in October 2020 on time and on budget. The Vartry Renal unit provides a patient centred environment with larger capacity. There is a Home Therapies Unit and a self-care Haemodialysis Unit. The 2,700m² Unit built over two floors has 28 Haemodialysis Treatment Bays, six single haemodialysis rooms for immunocompromised / acutely ill patients, four home dialysis training (Peritoneal & Haemodialysis) rooms and for the first time in Ireland, four self-care haemodialysis bays. There are also 14 offices which for the first time brings all the different medical and allied health care professionals that are involved in the care of renal patients together.

NEW INPATIENT CARE WING

Vision For The Future

Growing TUH to meet the changing demographics of our population, with proposed building of additional bed capacity for acute and elective care. This building will reflect contemporary models of care delivery which will be driven by technology and research; including a clinical research facility in association with Trinity College Dublin.

REEVES DAY SURGERY CENTRE

Opened October 2020 the 3,460 Sq M facility with four theatres and 25 recovery beds is located across the road from the main hospital. It will eliminate long wait times for routine day surgery and increase elective day surgery activity. The goal of the new facility is to reduce day surgery waiting times to a maximum of three months when fully operational.
