Introduction

Centre for Learning & Development (CLD)

I am pleased to present the 2026 Prospectus which details the learning and development opportunities available to staff in TUH, CHI at Tallaght and colleagues in Integrated Health Area Dublin South West. This year's Prospectus continues to support the implementation of the TUH Learning and Development Strategy 2023-2025. The Strategy identifies six key priority areas which are aligned with the TUH Human Resources Strategy and other key strategies.

Over the last year the Centre for Learning & Development (CLD) has continued to build on our expertise in providing high quality learning and development opportunities in the digital space by developing in house TUH eLearning content. A new High Fidelity Simulation Centre is planned for this year with the generous support of the Adelaide Health Foundation. The first role for the Centre, Simulation Nursing Lead, was appointed in 2024.

The CareerDevelopment@TUH Hub is available on HSeLanD for three of the six categories of TUH staff and work is underway on the remainder. The aim of the Hub is to guide and support all TUH staff in their career development. The TUH Leadership Academy continued to expand with the launch of the new Challenging Communications Workshop and a new TUH Coach. There was a greater focus on neurodiversity and this will be further expanded in 2026.

The Library and Information Services are open to all staff and students of TUH. The Library is a bright space to read and study and an out-of-hours study room is available. The Library provides access to world-class online resources, including the diagnostic support apps UpToDate and VisualDX. The extensive book collection covers all healthcare disciplines and also research, leadership and wellbeing. The Librarians provide expert guidance with search skills for systematic review to support direct patient care.

Please do ensure that this Prospectus is shared in your department and your teams. A digital version is also available on the TUH Website and the CLD Intranet page. This will be updated throughout the year to reflect any changes in relation to the Continuing Education Units (CEUs) or Continuing Professional Development (CPD) points or hours applied to TUH programmes. Once delivery dates are confirmed, education and training programmes dates are opened for enrolment on the TUH Learning Station on www.hseland.ie

Feel free to contact me regarding any Learning & Development enquiry you may have and also with your comments and feedback regarding the Prospectus.

Kind regards

Shauna

Pillars of Learning

No building can be supported by only one pillar, it requires a foundation and a number of supports to make the building structurally sound. Similarly, learning and development in Tallaght University Hospital requires a number of pillars to ensure that its foundation is responsive to the developmental needs of staff. The learning and development programmes in this prospectus are categorised into four pillars which provide a scaffold of longitudinal learning.

1. Patients

The programmes within this pillar are clinically based. They are designed to enhance the knowledge and skills of staff in the delivery of care to our patients and families. Some are mandatory or essential – but many are here to enrich and support your working life.

2. People

The programmes within this pillar are designed to enhance communication, collaborative working and the development of leadership skills. Tallaght University Hospital strives to be the employer of choice, developing and supporting a culturally diverse, highly competent, motivated and productive workforce. The Centre for Learning and Development, generously supported by the Meath Foundation, plays a central role in maintaining and growing leadership potential, facilitating leadership career pathways and enabling staff to reach their potential.

3. Process

The programmes within this pillar assist staff to provide quality health care that can be defined, measured and published. Programmes here provide the fundamental principles and tools in problem solving, analytical skills and systems thinking to enable staff to improve their own processes leading to a culture of safety and continuous quality improvement.

4. Professional

This programmes within this pillar enable staff to continue on their professional career journey in the hospital. Some are mandatory or essential – but many are here to enrich and support your working life.

TUH Learning Station

What is 'TUH Learning Station' and how to use it.

TUH Learning Station is Tallaght University Hospital's dedicated online Learning & Development Platform. It is the 'One stop online platform' for all TUH employee's Learning & Development requirements.

The system is hosted on www.HSeLanD.ie and allows TUH and CHI at Tallaght employees to:

- Self-enrol on classroom programmes in the Centre for Learning & Development & TUH.
- Continue to undertake HSeLanD eLearning along with TUH's own eLearning programmes.
- Search for education & learning opportunities in TUH and HSeLanD.
- Keep informed of Learning & Development updates/opportunities relating to both TUH & nationally through the "News" section.

The vast majority of programmes included in this prospectus are hosted on TUH Learning Station, from which TUH employees can enrol on classroom and online programmes.

How to register for TUH Learning Station

You will fall into one of the two following categories.

1. Have used HSeLanD before.
2. Have never registered on HSeLanD before.

Please follow the steps for the category you fall under.

1. Have used HSeLanD before:

Log on to www.hseland.ie (fig 1)

Figure 1

When you log onto HSeLand, you may need to update your profile (fig 2)

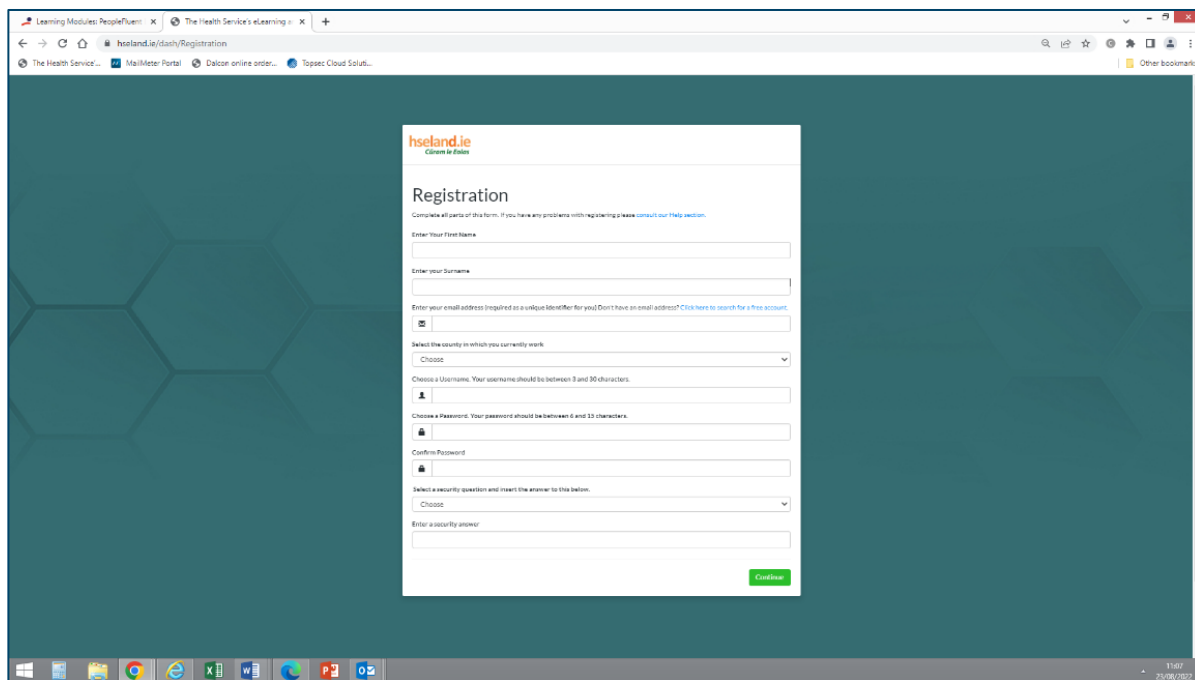

Figure 2

To verify that you are a TUH/CHI at Tallaght employee you will need to provide your employee personnel number, as well as your date of birth. After this step you are registered and ready to access the Learning Station.

2. Have never registered on HSeLand before

If it is your first time registering as a new employee of TUH, and do not yet have a personnel number to provide, you will be provided with eight weeks access to the system. You must update your details with your personnel number when issued by Human Resources Department.

If you have a personnel number, please follow the 'create an account' instructions and the system will recognise you as a TUH/CHI at Tallaght employee.

Using the Learning Station

Once you are successfully logged into the Learning Station, you can begin searching for and enrolling for all classroom and e-learning courses.

On the welcome screen (Fig 3) you will see the green search box where you can search for any course you wish to enrol in.

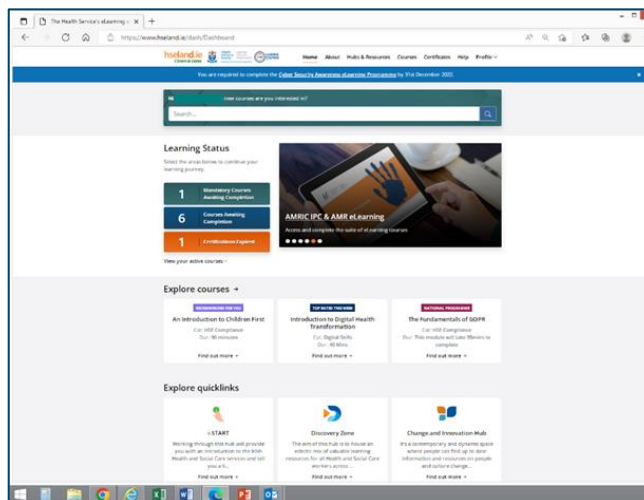

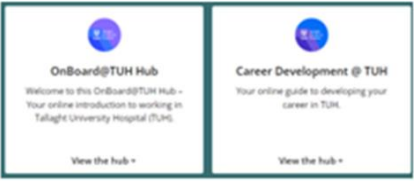

Figure 3

Centre for Learning & Development (CLD) Communications Strategy

The CLD recognises the importance of having a clear Communications Strategy. The purpose of CLD communications is to create a clear path for all our programme information, updates and news for Hospital Staff. The CLD currently communicates our programme information as follows:

 <p>Email alerts to staff regarding mandatory training / central email address for specific queries: learningstation@tuh.ie</p>	 <p>TUH Hubs on HSeLand</p>	
 <p>Hospital Newsletter Screen-saver messages Leaflets & Flyers</p>	 <p>CLD Intranet page – incl programme information, contact details and link to SharePoint Leave & Funding Application Form</p>	
<p>Social Media</p> <p> @CLDTallaghtHosp</p> <p> TUH Facebook page</p> <p> TUH LinkedIn page</p>	 <p>TUH Staff App</p> <p>Central email address for easy processing of enquiries: info.cld@tuh.ie</p> <p>Regularly email programme information to managers & staff regarding relevant programmes</p> 	
 <p>Annual Learning and Development Prospectus</p>	 <p>Visual Display Unit (located in CLD Reception Area)</p>	 <p>Hospital Internet Page: TUH.ie</p>

Study Leave/Funding Application and Reimbursement

Introduction

The following are instructions on the application for Learning & Development leave and/or funding and for the processing of applications by managers and portfolio directors.

Please note: ICT are not involved in the approval process and will not be able to assist with any queries regarding approved or rejected applications. Any queries should be directed to the relevant manager.

Please ensure that you have read the Learning & Development Leave & Funding Policy HR-POL-29, Learning & Development Funding SOP HR-PRO-20 and the Foreign & Domestic Travel & Subsistence for Staff of Tallaght University Hospital Policy Document Number: ADM-POL-31 which are available on Q-Pulse. Applications for funding and/or study leave will only be considered from staff who have completed all of their mandatory education and training.

Applying for Training Funding/Leave

1. To apply for developmental leave and/or funding, (please use Internet Explorer) go to TUH Intranet page. → Popular Links → Staff Forms (Figure 1) → 'S' Study Leave & Funding (Figure 2 & 3) **or** click on the link below:

<http://intranet.amnch.ie/tuheforms/eforms/Pages/StudyLeaveAndFunding.aspx>

Figure 1

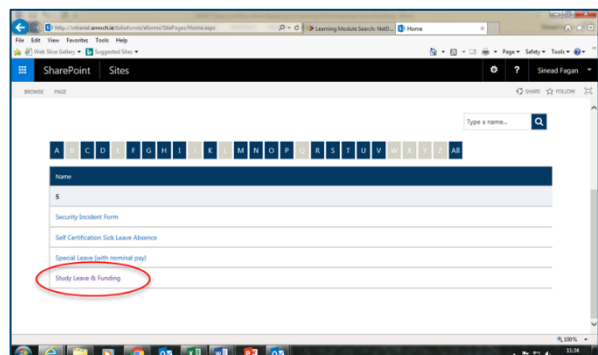

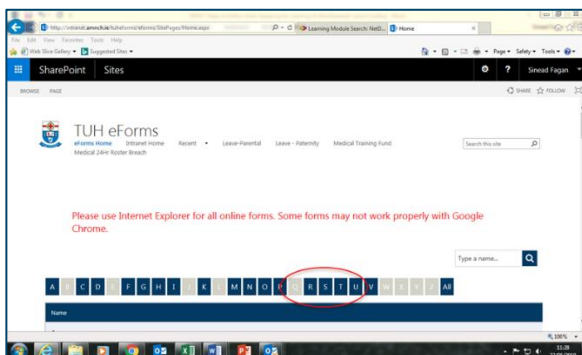

Figure 2 & 3

2. Click on the 'New Form' button (circled below - Figure 4).

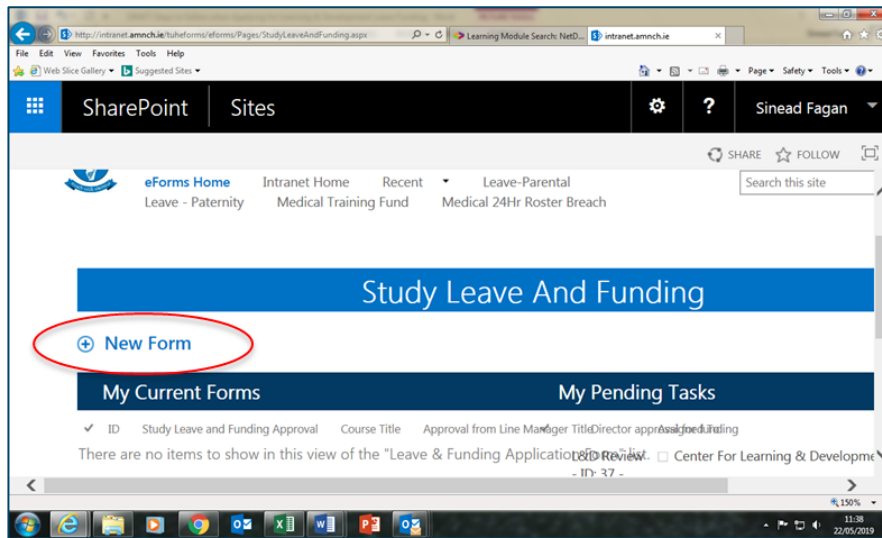

Figure 4

3. Please enter all the required information (Figure 5)

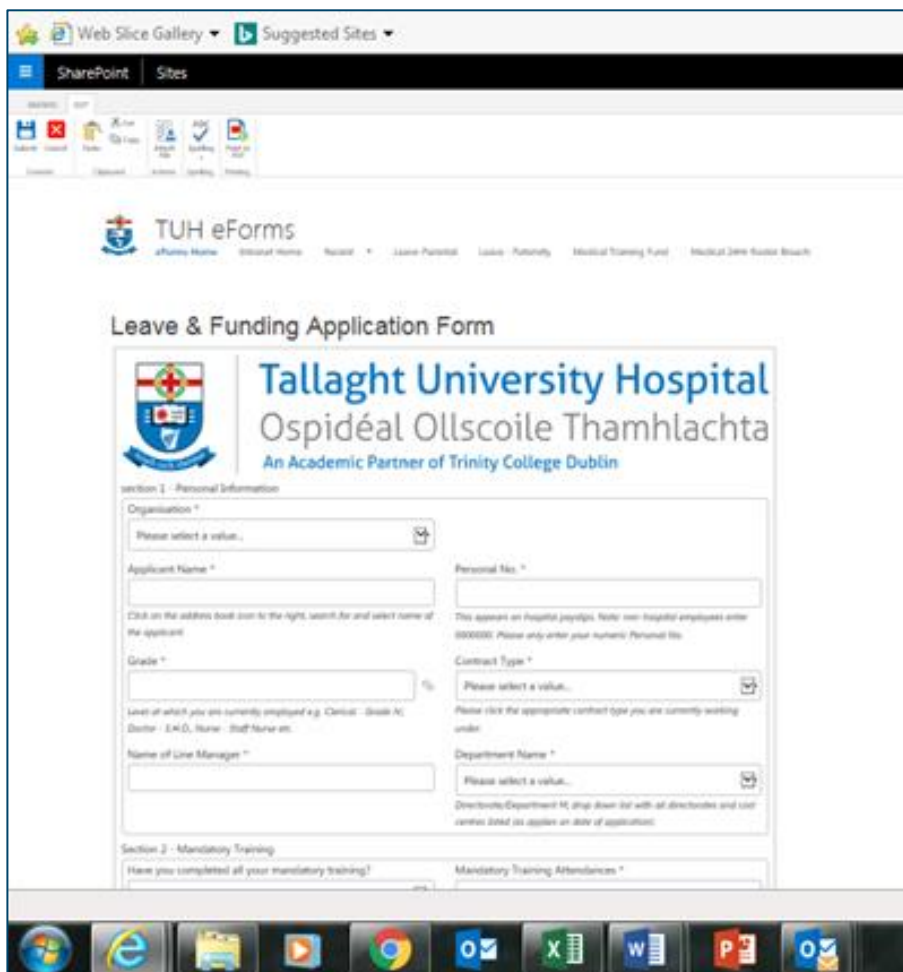

Figure 5

4. When you are happy with the content of the form click 'Submit' (Figure 6)

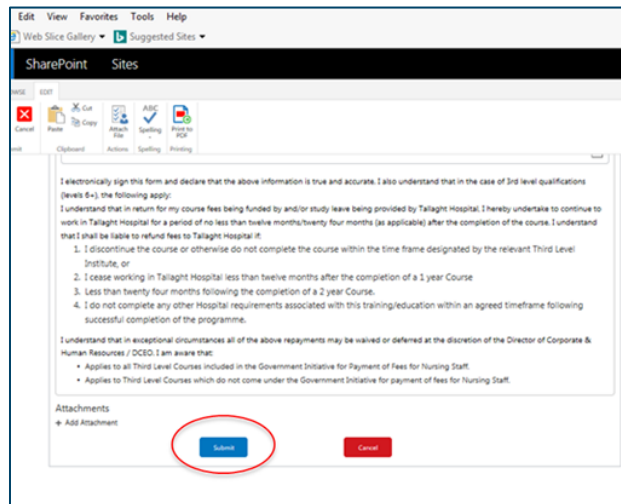

Figure 6

- Once you have clicked 'Submit' the Line Manager you selected in the process will receive notification via email.

Processing Developmental Leave and/or Funding Requests as a Manager

When an application for developmental leave and/or funding request has been submitted for your approval, you will receive an email (as above). Please click on the link in the email which will open a list of all unprocessed applications for your review.

To review an application, click on the edit button beside each request, review the details entered by the applicant and either approve or reject the applications. Applications for funding and/or study leave can only be considered from staff who have completed all of their mandatory education and training. If an application is approved, an automated email will be sent to notify the next person in the process (Director selected). If an application is rejected, an email will be sent to the applicant informing them that their application has not been successful.

Core

If the applicant is successful in their request for study leave, Managers must assign study leave hours for the applicant through Core. This process is outlined on the CLD Department page of TUH Intranet. (Figure 7)

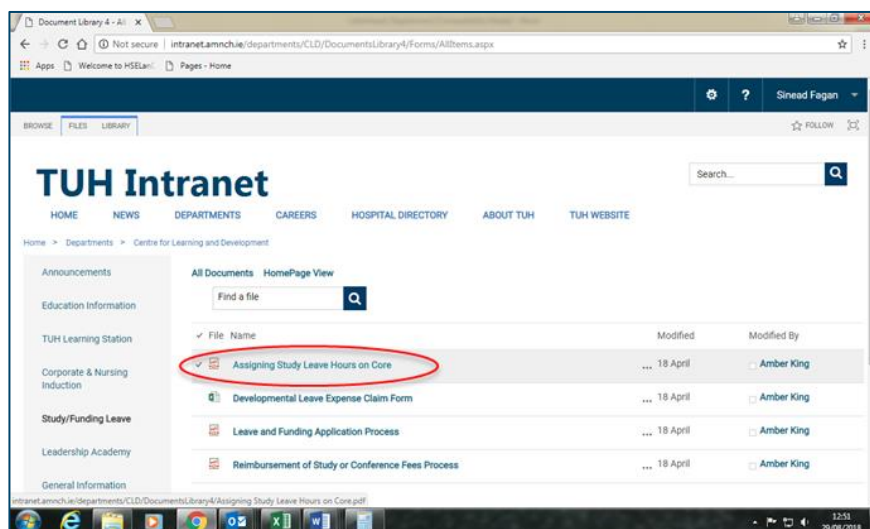

Figure 7

Applying for Reimbursement of Learning & Development Funding

1. To apply for reimbursement of L&D funding, go to TUH Intranet page. → Popular Links → Staff Forms (Figure 1) → 'S' Study Reimbursement Claim Form (Figure 2 & 3) **or** click on the link below:

<http://intranet.amnch.ie/tuheforms/eforms/Pages/StudyReimbursement.aspx>

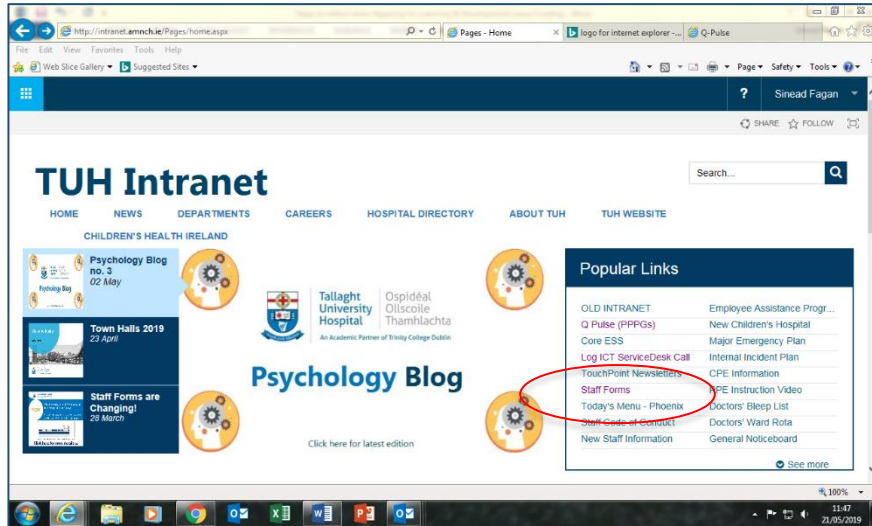

Figure 1

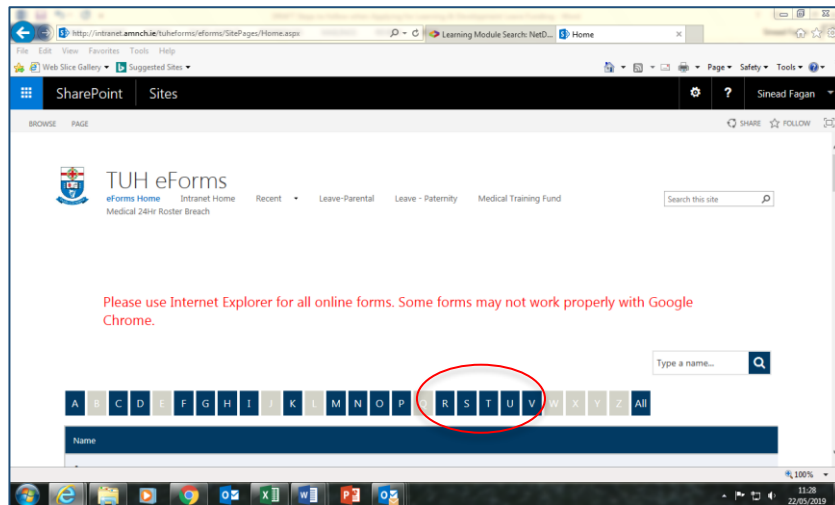

Figure 2

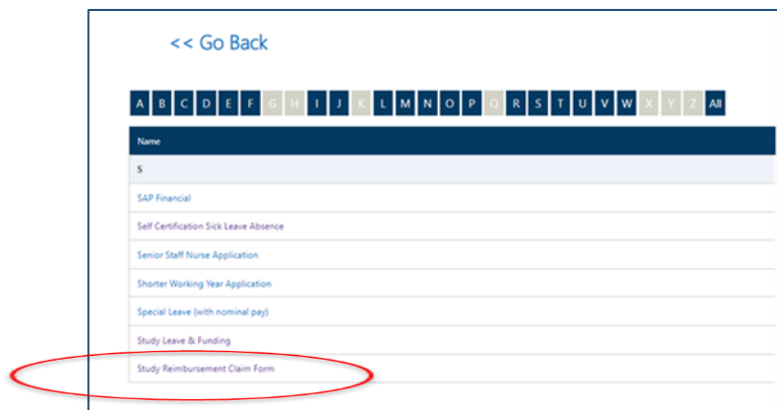

Figure 3

Click on the 'Click here to submit a Study Reimbursement Form' link (circled below - Figure 4).

Figure 4

2. Please enter all the required information (Figure 5). NB. Please include the corresponding Study Leave/Funding application ID and **you must attach evidence of payment and certificate of completion/attendance** in section 2. If you do not attach both evidence of payment and certificate of completion/attendance it will not be possible to process your application. When complete click 'submit'.

The image shows a screenshot of the 'Funding Reimbursement Claim Form' for Tallaght University Hospital. The form is titled 'Reimbursement Claim Form for Learnin...' and 'Tallaght University Hospital Ospidéal Ollscoile Thamhlachta An Academic Partner of Trinity College Dublin'. It is a 'Funding Reimbursement Claim Form'. Section 1 - Personal Information includes fields for Organisation (a dropdown menu), Applicant Name, Personnel Number, Name of Line Manager, Date of submission (11/09/2023), and Electronic Study Leave/Funding Application Number. Section 2 - Details of Claim includes a 'Please note' about attaching receipts and certificates, and a 'Title of course/conference' section with fields for Description and Cost. There are also fields for 'Receipt Attached' and 'Certificate of Successful Completion / Attendance Attached'. At the bottom, there are 'Submit' and 'Cancel' buttons.

Figure 5

3. Once submitted your application will be forwarded to the following for approval.
 1. Line Manager
 2. Learning & Development Team
 3. Payroll Department

You should receive an automated email from SharePoint to confirm your claim has been submitted.

Please note if there are errors made on the application it cannot be edited and a new application will have to be submitted. This applies to all users.

Processing L&D Reimbursement Claims as a Manager

When a reimbursement claim has been submitted for your approval, you will receive an automated email from SharePoint. Please click on the link in the email which will open a list of all unprocessed applications for your review.

To review an application, click on the edit button beside each request, review the details entered by the applicant and either approve or reject the claim.

Issues & Support

For all issues and queries regarding the process, please contact the Centre for Learning & Development:

info.cld@tuh.ie

Mandatory Training: Your Guide to keeping up to date

This guide aims to help you stay up to date with your mandatory training. Some training is mandatory to keep you and our patients safe and is part of our obligations as Hospital employees.

Some training is specific for your role, other training is mandatory for all staff in TUH. Some training only needs to be done once on Induction, other training has an expiry date.

The mandatory training you need to do is determined by your directorate, your department and/or your role. Based on those criteria we have created an overview of all mandatory training per staff-group. Overall this guide should be helpful to identify your staff group and the training that is mandatory for you. If you're unsure please check with your Line Manager.

When you log in to your HSeLanD account you can see an overview of your compliance of 11 mandatory training programmes for all TUH staff. You may need to complete further mandatory training depending on your role. You can find this information in this guide.

Please discuss with your line manager if you are finding it difficult to complete your mandatory training. If it's not possible for you to complete your Mandatory training during your working day, you may be able to complete it at home and get the time back, please discuss with your line manager

[Link to your Mandatory Training Guide](#)

Equality & Diversity

Equal Opportunities in Learning & Development

<p>Tallaght University Hospital is an Equal Opportunities employer. We pride ourselves on ensuring that our learning and development process is fair, equitable and accessible to all staff.</p> <p>Please let us know if you have any specific requirements to enable you to take part in learning & development programmes.</p> <p>You can fill in the form opposite and send to either of the email addresses below in confidence or directly contact Head of Learning & Development or Deputy via email, phone or face to face meeting.</p> <p>Please be assured that any information you choose to share will be treated as highly confidential and will only be used for the purpose of meeting your specific requirements to take part in learning & development.</p> <p>If you have any concerns or queries please contact shauna.ennis@tuh.ie or clodagh.mcloughlin@tuh.ie</p>	Name _____

Disclaimer

Disclaimer for the Provision of Education/Training by the Centre for Learning & Development at Tallaght University Hospital

Attendance and/ or participation in the programmes which are provided by, or on behalf of, Centre for Learning & Development (**CLD**) at Tallaght University Hospital (**TUH**) is subject to the following terms and conditions:

1. Programmes are developed solely for the purposes of TUH requirements in the interests of protecting and improving the health of the public in respect of the knowledge and training of nurses, midwives and other employees of a healthcare provider who are engaged in a healthcare environment (whether public and/or private).
2. In light of these purposes, programmes are intended to provide educational information to aid and augment an understanding of the theoretical subject matter presented and/ or the practical application of certain skills and competencies.
3. It is the individual responsibility of each practitioner to assess and maintain his/ her own competence in respect of any situation and to assess the limitations of his/ her competence. Programmes are not intended to affect, interfere with or limit a person's individual responsibility to practice safely and effectively within his/ her scope of practice and in accordance with any local policies, guidelines and/ or protocols which may exist.
4. The TUH shall have no liability, whether in (a) contract, (b) tort, (c) statute or (d) otherwise, for any injury, loss, damage or claim arising out of, or in connection with, any person's attendance and/ or participation in programmes including but not limited to the subject matter thereof and/ or arising out of the use of any handbooks, guidance notes, other documentation, oral presentations/ demonstrations, web-based learning tools or any other instruction or materials provided as part of courses (the "**Materials**"), howsoever arising.
5. Any Materials provided by TUH as part of programme of education/training are provided for information and guidance purposes only. TUH makes no representation assurance, warranty or guarantee of any kind whatsoever in relation to the Materials. The provision of the Materials is without prejudice to the obligation of persons attending and/ or participating in programmes to continually develop themselves as professionals, where applicable.
6. If and to the extent that any provision in this Disclaimer is held to be unenforceable, illegal or void in whole or in part, it will to that extent be deemed not to form part of this Disclaimer and the enforceability, legality and validity of the remainder of this Disclaimer will not be affected.
7. Nothing in this Disclaimer shall limit or exclude the liability of the TUH in a manner which is prohibited by law.
8. This Disclaimer shall be governed by and interpreted in accordance with Irish Law. These terms and conditions are without prejudice to the operation of the Clinical Indemnity Scheme and the professional responsibilities of any persons attending and/ or participating in this programme.

National SACT Competency Programme for Nurses Working in Cancer Care – Classroom or Virtual – 2 Day Programme

<p>Aim & Learning Outcomes:</p>	<p>The aim of the 'National Systemic Anti-Cancer Therapy (SACT) Competency Programme for Nurses Working in Cancer Care' is to standardise the education and assessment of SACT administration and patient care, ensuring consistently safe and high-quality SACT practice. Upon completion of the programme, registered SACT administrators are then free to move between employers within Ireland and the UK without the need for retraining. SACT nurses who have previously achieved competence against all learning outcomes of the Passport should complete an annual Re-accreditation Competency Certificate and managers should verify that this has been undertaken and achieved. SACT nurses who have previously achieved competence against all learning outcomes of the Passport and are returning to SACT practice after a break for a period of six months or more should revise, or re-complete the Passport, along with the annual Re-accreditation Competency Certificate to ensure ongoing currency of their competence, reassuring managers that the nurses SACT competence is current. Refer to the UKONS SACT Competency Passport Learning Outcomes Framework (2019) for the learning outcomes for each of the six subjects included in the passport:</p> <p><i>Subject 1: Foundation Skills</i> <i>Subject 2: Administering Oral SACT</i> <i>Subject 3: Administering Intramuscular (IM) or Subcutaneous (SC) SACT</i> <i>Subject 4: Administration of Intravenous (IV) SACT</i> <i>Subject 5: Pre-Treatment Consultation (All Routes)</i> <i>Subject 6: Pre-Treatment Consultation for Oral SACT</i></p>
<p>Content:</p>	<p>Programme structure is broken into 2 components:</p> <ol style="list-style-type: none"> 1. 2 Day Training Programme <p>The programme is comprised of a two day (16 hrs) theoretical programme, delivered virtually, in the classroom or a combination of both. Day 1 and 2 will be a week apart to allow participants to consolidate learning. It will be supplemented by work based learning, reflection on practice and additional self-directed learning. Participants from Type 3 or Type 4 SACT hospitals/services will be offered a 1 day clinical placement in the ambulatory day unit of the programme provider.</p>
<p>Target Audience:</p>	<p>It is envisaged that delivery of the National SACT Competency Programme for Nurses Working in Cancer Care will operate through the co-ordinated input from the NCCP, NMPDU's, CNME's, CNE's and CLD's nationally. This will allow equal opportunity and participation from cancer nurses in all 25 public hospitals currently providing systemic therapy services to adult cancer patients. The aim is to standardise the assessment of SACT administration and patient care, and in doing so ensure consistently safe and high-quality SACT practice.</p>
<p>Programme Requirements:</p>	<ul style="list-style-type: none"> • Nurses must be registered with NMBI and be on the live register for 12 months or more • Nurses must be working in cancer care for a minimum of 3 months • Nurses must complete the application form online through HSeLanD following discussion with the relevant manager with commitment to full attendance. The manager has full authority with regards to candidate selection as they are best positioned to ensure that a) the staff nurse has sufficient pre-requisite

	<p>knowledge and skills to undertake the programme, and b) that staffing levels, supports and clinical assessors etc. are available.</p> <ul style="list-style-type: none"> • Nurses must have explored NCCP guidance documents and resources, local PPPG's as well as other recommended reading outlined in Appendix 1. • Nurses must have achieved competence in intravenous (IV) administration of medicines by successfully completing an IV Study Day at local level • Nurses must have gained requisite competence related to medicines management, including calculations for medicine administration in accordance with local policy and have successfully completed Medicines Management on HSeLanD • Nurses must have achieved competence in the care and management of central venous access devices (CVAD's) by successfully completing relevant training and certification at local level • Nurses must have achieved competence in peripheral venous cannulation and venepuncture by successfully completing relevant training and certification at local level • Nurses must have gained requisite competence in the management of anaphylaxis by successfully completing the National Anaphylaxis Education Programme for Healthcare Professionals on HSeLanD • Nurses should have successfully completed Chemical Safety in the Workplace (Introduction) on HSeLanD • Nurses should have successfully completed the National Intrathecal Chemotherapy e-learning tool on HSeLanD
Assessment:	<p>Step 1: Complete the Theoretical Sections Step 2: Complete the Clinical Practice Assessment Sections Step 3: Complete the UKONS SACT Safe Handling and Administration Certificate and then annual completion of the Re-accreditation Competency Certificate and submission to HSeLanD to ensure the nurse remains on the SACT register.</p>
Level of Learning:	<ul style="list-style-type: none"> • NMBI Category 1 Approval

Nursing and Midwifery Quality Care Metrics – Blended Learning Programme

Aim & Learning Outcomes:	The aim of this programme is to enhance the knowledge and skills of Registered Nurses with regard to the documentation of nursing care in accordance with Nursing and Midwifery Board of Ireland guidance and organisational policy.
Content:	Quality Care-Metrics provide nurses and midwives with a framework to engage in continuous quality improvement at the point of care delivery in order to positively influence the care experience for patients, clients and families. Quality Care-Metrics enable services to collect data to facilitate measurement of care quality, generate reports and trends on care quality and develop action plans to facilitate improvements in that care quality where required. This five module programme takes participants through the QCM journey from Quality Care-Metrics explained through data collection, report generation and analysis, action planning and finishes with a clinical scenario that puts this learning into action
Target Audience:	<ul style="list-style-type: none"> All Registered Nurses, Nursing interns and Nursing students
Programme Requirements:	<ul style="list-style-type: none"> Complete Video Podcast of Nursing documentation on www.HSeLanD.ie Complete HSeLanD Online Nursing and Midwifery Quality Care Metrics programme (5 modules)

TUH Leadership Academy

Modern health care delivery is constantly evolving. Effective leadership is key in supporting people and teams to respond to changing needs and ensure the delivery of high quality, evidence based care and services to our patients. The TUH Leadership Academy offers of a number of programmes to support leaders and people managers in their roles in the Hospital:

1. An Introduction to Leadership and People Management

The aim of this programme is to assist and support individuals across all grade categories and disciplines that are taking up managerial roles in Tallaght University Hospital for the first time.

2. Advanced Leadership Development Programme

The aim of this 3 day education programme is to further enhance the leadership skills of experienced people managers in the Hospital. Participants must be at Grade V, VI or VII, CNM1, 2 or 3 or equivalent grade. Participants must have undertaken either the TUH 'Introduction to the Roles and Responsibilities of People Managers' programme or the TUH 'Introduction to Leadership and People Management' programme previously.

3. Meath Foundation/TUH Fellowships: Master's Degree Programmes

The Meath Foundation and TUH MSc fellowships provide an opportunity for Tallaght University Hospital staff to enable change within the hospital, to empower staff and develop their leadership potential, to improve efficiency and to contribute to the development of Tallaght University Hospital as a provider of best quality healthcare services.

The Masters programmes below are tailored specifically for healthcare. Although grounded in up-to-date academic research, courses are flexible and practical. Students learn to analyse complex organisational and managerial problems and deploy a broad range of management tools to identify and assess solutions. The practical application of learning is emphasised.

4. TUH SOAR Coaching Programme

Coaching is a one-to-one, private, confidential and practical approach to personal and professional development. It is available to all staff on request.

5. TUH ATHENA Mentoring Programme

The aim of this to introduce participants to the mentoring process and equip mentors with the knowledge and skill to support the development of a working mentoring relationship.

The Meath Foundation Fondúireacht Na Mí

TUH ATHENA Mentoring Programme

TUH, supported by the Meath Foundation, offers Mentoring to all TUH staff.

What is Mentoring?

Mentoring is a one-to-one relationship of mutual respect, where a Mentor is usually a more senior person, or someone who has been in an organisation longer. The Mentor can give advice, support and wise counsel to the Mentee. The Mentor will help the Mentee develop and grow, both in their role and in the organisation. A Mentor can help develop the Mentee's leadership potential, improve communication skills and conflict management. Mentoring means being a role model and sharing knowledge and experience. Mentoring is also about learning from the Mentee.

How Mentoring Works

If you are interested in having a Mentor, you can select one yourself via the ATHENA Mentoring database on SharePoint.

You can also ask your Line Manager or a colleague to recommend one for you. You then apply directly to the Mentor. If they are available you arrange to meet and discuss entering into a Mentoring relationship.

Mentoring usually lasts six months, however, many Mentoring relationships continue well beyond that. You usually meet with your Mentor once a month. Each session will last around an hour.

A Manager can also refer someone for Mentoring if both the Manager and staff member feel that it will be of benefit.

What can you gain from having a Mentor?

- Advice and support
- A relationship of mutual trust
- The shared experience of someone more senior or with more knowledge of the organisation
- Insight into potential pitfalls
- Confidence and empowerment

What can you gain from being a Mentor?

- The satisfaction of seeing someone develop their potential
- Succession planning
- An insight into the Mentee's area of work
- Enhances your CV for furthering your own career

Where can I get more information?

For further information, please refer to the Leadership Academy section on the CLD's intranet site.

Confidential e-mail: mentoringprogramme@tuh.ie

Staff can apply for Mentoring using the SharePoint application form.

The Art of Mentoring

Aim & Learning Outcomes:	<ul style="list-style-type: none"> The aim of this programme is to: Introduce participants to the mentoring process. Equip mentors with the knowledge and skill to support the development of a working mentoring relationship

Open Disclosure Workshop

Aim & Learning Outcomes:	<ul style="list-style-type: none"> To train healthcare personnel on delivering on the principles of open disclosure within their respective services. To brief staff about the open disclosure programme and its significance nationally. To have an understanding of Open Disclosure and its implications for patients, their families, staff and the wider organisation. To build understanding as to how OD links into the existing HSE Quality, Safety, Risk and Quality Improvement framework. To provide guidance on how to implement the principles of open disclosure. To inform about the Patient Safety Act and update clinicians around their roles and responsibilities. To provide information and training via case scenarios and role play on delivering the principles of open disclosure. To practice key skills needed to implement guidance effectively.
Content:	<ul style="list-style-type: none"> Overview of Adverse events and Open Disclosure Overview of current status in the Republic of Ireland. Adverse Events – What patients expect from us Adverse Events - The Clinician's perspective and considerations The Open Disclosure Process
Target Audience:	<ul style="list-style-type: none"> Training is mandatory for all staff. Skills Training i.e. the 4 hour face to face workshop is mandatory for all doctors and managers, every 3 years. It is a Scally Report recommendation that all doctors are required to attend open disclosure training as part of their contract of employment.
Programme Requirements:	<ul style="list-style-type: none"> It is recommended to complete the two e-learning programmes via www.HSeLanD.ie prior to attendance
Assessment:	<ul style="list-style-type: none"> Understanding will be assessed throughout the programme via interaction and workshop facilitation.
Level of Learning:	<ul style="list-style-type: none"> NMBI Category 1 Approval – 4 CEU's RCPI Approval – 4 CPD's
Is the Programme Mandatory:	<ul style="list-style-type: none"> Yes – for some staff cohorts, please refer to Mandatory Training available on CLD Intranet Page
Number of Participants:	Minimum of 8 participants for the class to be delivered.
Facilitator:	Clodagh Mcloughlin, Deputy Head of Learning & Development (01) 4142851; Clodagh.Mcloughlin@tuh.ie

Occupational Health and Safety Training Catalogue

- The Safety, Health and Welfare at Work Act 2005 requires Tallaght University Hospital as an employer, to provide information, instruction, training and supervision for all employees as necessary.
- Managers are required to ensure employees are aware of training requirements and facilitate employees to complete their training in a safe manner. Training requirement/needs are established following risk assessment and training needs analysis (please refer to Occupational Safety & Health Policy on Q-pulse).
- Employees have a responsibility to attend training and undergo any assessment as necessary.
- Employees are also responsible for notifying the employer or the employer's nominated registered practitioner if they become aware that they are suffering from any disease or physical or mental impairment which affects their performance of work activities that could give rise to risks to the safety, health and welfare of persons at work. The duty is on the employee to protect themselves and others.
- Training is available via HSeLanD TUH Learning Station or contact health.safety@tuh.ie. Please refer to specific training pages on OH&S intranet page (Health and Safety Training library) or Occupational Safety & Health Policy on Q-Pulse.

Biological Agents-Managing Health and Safety in Healthcare: Biological Agent Hazards

Overview:	<p>Managing Health and Safety in Healthcare: Biological Agent Hazards course presents learners with an overview of the types and classes of biological agents that they may encounter in healthcare and introduces the concept of biological agents risk assessment. The content is suitable across all healthcare settings and provides concise practical strategies for everyday use.</p> <ul style="list-style-type: none"> • Outline the four biological agent risk groups • Identify ways in which healthcare employees are exposed to biological agents in the workplace • Recognise the types of health effects associated with hazardous biological agents • Describe how to carry out a biological agents risk assessment in the workplace, and <p>Describe the measures used to safeguard healthcare employees from harmful effects of hazardous biological agents</p>
Pre Course Requirements:	<p>General awareness.</p> <p>Recommended for: all employees with supervisory or managerial responsibilities in healthcare such as department managers, heads of department and for employees who work with or who are at risk of exposure to Biological Agents in the workplace</p>
Is there associated CPD for the programme:	No
Duration	40-60 mins
Facilitator:	HSeLanD
Fee:	No cost to TUH employees

Method of Booking:

TUH Learning Station via www.HSeLanD.ie

Chemical Agents Hazards-Managing Health and Safety in Healthcare

Overview:	<p>This course presents learners with an overview of chemicals, how people can be exposed to them in the workplace and how to assess and control exposure to them. The content is suitable across all healthcare settings and provides concise practical strategies for everyday use.</p> <ul style="list-style-type: none"> • Identify chemical agent hazards that exist in the healthcare environment • Identify ways in which healthcare employees are exposed to chemical agents in the workplace • Outline the steps involved in a chemical risk assessment <p>Describe measures used to safeguard healthcare employees from the effects of hazardous chemicals</p>
Pre Course Requirements:	<p>General awareness</p> <p>Recommended for all employees with supervisory or managerial responsibilities in healthcare such as department managers, heads of department with responsibility for undertaking chemical risk assessments on the safe use and storage of chemicals.</p>
Is there associated CPD points:	No
Duration:	40-60mins
Facilitator:	HSeLanD
Fee:	No cost to TUH employees

Method of Booking:

TUH Learning Station via www.HSeLanD.ie

Chemical Safety in the Workplace (Introductory)

Overview:	<p>This introductory course on chemical safety in the workplace addresses the identification and risk assessment of chemicals.</p> <p>The course provides a general overview of chemicals in the workplace, including:</p> <ul style="list-style-type: none">• A broad outline of the types of chemical substances found in workplaces• How to develop a chemical inventory, involving the interpretation of labels and safety data sheets in the identification of hazardous chemicals <p>An overview of chemical risk assessment to include information on exposure and implementation of the hierarchy of control.</p>
Pre Course Requirements:	<p>General chemical awareness.</p> <p>Course is recommended for all employees who use, handle or store chemicals as part of their work activities.</p>
Is there associated CPD for the programme:	No
Duration:	30 mins
Facilitator:	HSeLanD
Fee:	No cost to TUH employee

Method of Booking:

TUH Learning Station via www.HSeLanD.ie

Display Screen Equipment: Assessor Module

Overview:	<p>Aim:</p> <p>The aim of this module is to equip Display Screen Equipment (DSE) Assessors with the knowledge and skills to carry out a basic DSE risk assessment.</p> <p>Learning Outcomes:</p> <ul style="list-style-type: none">• Describe the legislative requirements in relation to DSE risk assessment• Identify the hazards and risks associated with a DSE User's current workstation set-up• Recommend control measures to reduce the risk of injury or ill-health associated with DSE use• Complete an HSE DSE risk assessment• Introduce what is a DSE• The DSE risk assessment process
Pre Course Requirement:	<p>General computer awareness</p> <p>This training is intended for DSE workstation assessors (i.e. Line managers)</p>
Is there associated CPD points:	No
Duration:	60 mins
Facilitator:	HSeLanD
Fee:	No cost to TUH employees

Method of Booking:

TUH Learning Station via www.HSeLanD.ie

Display Screen Equipment: User Awareness Module

Overview:	<p>Aim:</p> <p>The aim of this programme is to show how you can use display screen equipment (DSE) safely in your place of work.</p> <p>Learning Outcomes:</p> <ul style="list-style-type: none">• Define the terms DSE user and workstation.• Describe the responsibilities of the employer and you, the employee, in relation to DSE use.• Explain the term ergonomics and describe the risk associated with DSE use.• Adjust your workstation to ensure you are comfortable and to reduce the risks from using DSE.• Introducing what is DSE.• Ergonomics and risks of injury from using DSE.• Adjusting your workstation.
Pre course requirements:	<p>General computer awareness</p> <p>This training is for employees who use DSE.</p>
Duration:	40mins
Facilitator:	HSeLanD
Cost:	No cost to TUH employees
