We may also process certain special categories of information, which may include racial or ethnic origin, religious or philosophical beliefs, and the processing of genetic data, biometric data for the purpose of uniquely identifying a person, data concerning health or data concerning a person's sex life.

CCTV

TUH does use camera surveillance systems (commonly referred to as CCTV) throughout our organisation for the purpose of maintaining the safety and security of its staff, patients, visitors and other attendees. TUH CCTV systems may, but will not always, collect and store personal information. TUH will comply with the GDPR and this Privacy Notice in respect of any personal information collected via its CCTV systems.

3. Legal basis for processing

TUH's lawful basis for processing personal data of service users is as follows:

1. The processing is necessary in order to protect the vital interests of the person (referred to as the data subject in Data Protection language). This would apply in emergency situations such as in the Emergency Department when unconscious, sharing information with other emergency services for rescue or relocation in storms etc.
2. The processing is necessary for a task carried out in the public interest or in the exercise of official authority vested in the controller; for the TUH this official authority is vested in us through the Health Act 2004 (as amended).

Special categories of data are defined by the GDPR and include things like racial or ethnic origin, religious or philosophical beliefs, genetic data, biometric data, health data, sex life details and sexual orientation.

We will only process special categories of personal data where it is necessary:

- for the purposes of preventative or occupational medicine,
- for the assessment of the working capacity of the patient,
- for medical diagnosis,
- for the provision of healthcare, treatment or social care,
- for the management of health or social care systems and services, or
- pursuant to a contract with a health professional.

Processing is lawful where it is undertaken by or under the responsibility of

- a health practitioner, or
- a person who in the circumstances owes a duty of confidentiality to the data subject that is equivalent to that which would exist if that person were a health practitioner. For example the outpatient clinic secretary, Emergency Department Receptionist, Primary Care Centre staff etc.

If the purpose of the processing is for a reason other than the reasons above, we will seek explicit consent to process your sensitive personal data (referred to as 'special categories' of data under the GDPR).
